

Fishery Conservation and Management

§ 660.51

§ 660.50 Harvest limitation program.

* * * *

(b) * * *

(5) For the 1998 fishing season, the following harvest guidelines apply to the four lobster grounds in Crustaceans Permit Area 1:

(i) No more than 70,000 lobsters may be harvested from the Necker Island Lobster Grounds;

(ii) No more than 20,000 lobsters may be harvested from the Gardner Pinnacles Lobster Grounds;

(iii) No more than 80,000 lobsters may be harvested from the Maro Reef Lobster Grounds; and

(iv) No more than 116,000 lobsters may be harvested from the General NWHI Lobster Grounds.

(6) The Regional Administrator, Southwest Region, NMFS, shall determine, on the basis of the information reported to NMFS by the operator of each vessel fishing, when the harvest guideline for each lobster grounds will be reached.

(7) Notice of the date when the harvest guideline for a lobster grounds is expected to be reached, and specification of the closure date of the lobster grounds, will be provided to each permit holder and/or operator of each permitted vessel at least 24 hours in advance of the closure. After a closure, the harvest of lobster in that lobster grounds is prohibited, and the possession of lobster traps on board the vessel in the lobster grounds is prohibited unless allowed under § 660.48(a)(10).

(8) With respect to the notifications in paragraphs (b)(3) and (b)(7) of this section, NMFS shall provide each permit holder and operator of each permitted vessel with the following information, as appropriate:

(i) Determination of when the overall harvest guideline for Crustaceans Permit Area 1 will be reached;

(ii) Closure date after which harvest of lobster or possession of lobster traps on board the vessel in a lobster grounds is prohibited;

(iii) Closure date after which the possession of lobster traps on board the vessel in Crustaceans Permit Area 1 is prohibited by any permitted vessel that is not operating a VMS unit certified by NMFS; and

(iv) Specification of when further landings of lobster will be prohibited by permitted vessels not using VMS units certified by NMFS.

§ 660.51 Monk seal protective measures.

(a) *General.* This section establishes a procedure that will be followed if the Regional Director receives a report of a monk seal death that appears to be related to the lobster fishery in Permit Area 1.

(b) *Notification.* Upon receipt of a report of a monk seal death that appears to be related to the lobster fishery, the Regional Director will notify all interested parties of the facts known about the incident. The Regional Director will also notify them that an investigation is in progress, and that, if the investigation reveals a threat of harm to the monk seal population, protective measures may be implemented.

(c) *Investigation.* (1) The Regional Director will investigate the incident reported and will attempt to:

(i) Verify that the incident occurred.

(ii) Determine the extent of the harm to the monk seal population.

(iii) Determine the probability of a similar incident recurring.

(iv) Determine details of the incident such as:

(A) The number of animals involved.

(B) The cause of the mortality.

(C) The age and sex of the dead animal(s).

(D) The relationship of the incident to the reproductive cycle, for example, breeding season (March-September), non-breeding season (October-February).

(E) The population estimates or counts of animals at the island where the incident occurred.

(F) Any other relevant information.

(v) Discover and evaluate any extenuating circumstances.

(vi) Evaluate any other relevant factors.

(2) The Regional Director will make the results of the investigation available to the interested parties and request their advice and comments.

(d) *Determination of relationship.* The Regional Director will review and

evaluate the results of the investigation and any comments received from interested parties. If there is substantial evidence that the death of the monk seal was related to the lobster fishery, the Regional Director will:

(1) Advise the interested parties of his or her conclusion and the facts upon which it is based.

(2) Request from the interested parties their advice on the necessity of protective measures and suggestions for appropriate protective measures.

(e) *Determination of response.* The Regional Director will consider all relevant information discovered during the investigation or submitted by interested parties in deciding on the appropriate response. Protective measures may include, but are not limited to, changes in trap design, changes in gear, closures of specific areas, or closures for specific periods of time.

(f) *Action by the Regional Director.* If the Regional Director decides that protective measures are necessary and appropriate, the Regional Director will prepare a document that describes the incident, the protective measures proposed, and the reasons for the protective measures; provide it to the interested parties; and request their comments.

(g) *Implementation of protective measures.* (1) If, after completing the steps described in paragraph (f) of this section, the Regional Director concludes that protective measures are necessary and appropriate, the Regional Director will recommend the protective measures to the Assistant Administrator and provide notice of this recommendation to the Chairman of the Council and the Director of the Division of Aquatic Resources, Department of Land and Natural Resources, State of Hawaii.

(2) If the Assistant Administrator concurs with the Regional Director's recommendation, NMFS will publish an action in the FEDERAL REGISTER that includes a description of the incident that triggered the procedure described in this section, the protective measures, and the reasons for the protective measures.

(h) *Notification of "no action."* If, at any point in the process described in this section, the Regional Director or

Assistant Administrator decides that no further action is required, the interested parties will be notified of this decision.

(i) *Effective dates.* (1) The protective measures will take effect 10 days after the date of publication in the FEDERAL REGISTER.

(2) The protective measures will remain in effect for the shortest of the following time periods:

(i) Until the Crustaceans FMP and this section are amended to respond to the problem;

(ii) Until other action that will respond to the problem is taken under the ESA;

(iii) Until the Assistant Administrator, following the procedures set forth in paragraph (j) of this section, decides that the protective measures are no longer required and repeals the measures; or

(iv) For the period of time set forth in the FEDERAL REGISTER notification, not to exceed 3 months. The measures may be renewed for 3 months after again following procedures in paragraphs (b) through (g) of this section.

(j) *Repeal.* (1) If the Assistant Administrator decides that protective measures may no longer be necessary for the protection of monk seals, the interested parties will be notified of this preliminary decision and the facts upon which it is based. The Assistant Administrator will request advice on the proposed repeal of the protective measures.

(2) The Assistant Administrator will consider all relevant information obtained by the Regional Director or submitted by interested parties in deciding whether to repeal the protective measures.

(3) If the Assistant Administrator decides to repeal the protective measures—

(i) Interested parties will be notified of the decision; and

(ii) Notification of repeal and the reasons for the repeal will be published in the FEDERAL REGISTER.

§ 660.52 Monk seal emergency protective measures.

(a) *Determination of emergency.* If, at any time during the process described
